PRI Sales & Marketing Manager Eric Jurado joined more than 120 representatives from various nations throughout the Americas at the XV Congreso Americano FIA, held in Buenos Aires, Argentina, August 1–3, 2013.

The Congress's theme centered on ensuring driver safety—not only on race tracks but on the streets of North and South America as well. It was headed by FIA president Jean Todt.

The FIA's Action for Road Safety is a global campaign leveraging the federation's resources to help its member organizations around the globe educate and advocate for safer roads on and off the track.

In addition to exhibiting, Jurado delivered a presentation before the FIA on the benefits of the Performance Racing Industry Trade Show, which takes place December 12–14, 2013, in Indianapolis, Indiana. He also met with Fundacion Exportar, which organizes the Argentinean Motorsports Group.
